GENERAL DIRECTIONS FOR ADMINISTERING ONLINE TESTS

BEFORE TESTING

The general directions that follow include steps that are necessary to administer the online tests. The Division Director of Testing (DDOT) should determine who will be responsible for activities listed below.

Prior to the test administration, log in to PEMSolutions at <http://www.pearsonaccess.com/va> using the Login ID and Password provided to you by the School Test Coordinator (STC). The first time that the newly assigned Login ID and Password are used, you will be required to read and accept the *Test Security Guidelines*. After doing so, the user can print and sign this version by clicking the Printer Friendly link on the screen. You may print and sign this version or copy and sign the Test Security Guidelines included in this manual.

On the morning of testing, Examiners will receive all materials needed to administer the online Standards of Learning (SOL) tests. The STC should provide Examiners with:

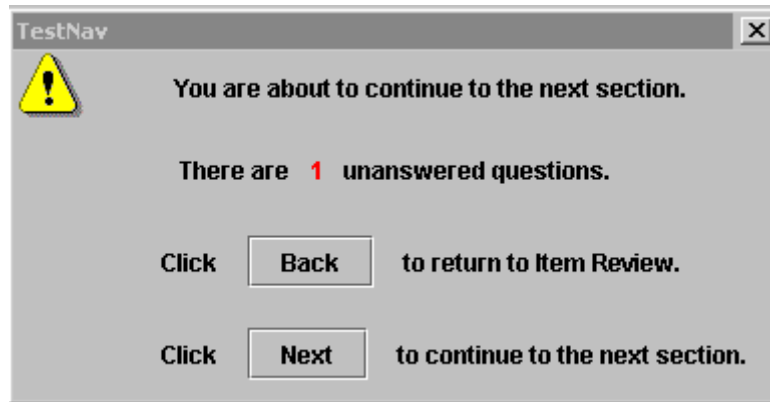

- Student Authorization tickets (test tickets)
- Proctor Authorization ticket (if Read-Aloud session)
- Test Session Roster (optional)
- Appropriate test materials

Prior to the students arriving, the STC should locate and start the test sessions that are scheduled for the day. Follow the steps below to locate and start the test sessions:

1. Access PEMSolutions at <http://www.pearsonaccess.com/va> and log in.
2. Click on the *Test Setup* tab.
3. Click on *Manage Test Sessions* link.
4. Sort the session list by start date to show the list of sessions scheduled for that day.
5. Click on the session name you want to work with.
6. Click on the *Start* button in the upper left-hand corner of the Session Details to activate the Student Authorization tickets (test tickets).
7. A Session Start Confirmation screen will notify you that you have requested to start the session; click the *Yes-Start Session* button.
8. A subsequent message will indicate that you have started the session.
9. Click on *Manage Test Sessions* to return to the list of sessions.
10. Repeat steps 6-9 until all sessions scheduled for the day have been started.

SEAL CODES

Each of the Grades 6 and 7 *Mathematics* tests contain a section break with a Seal Code. A Seal Code prevents a student from entering a sealed section of a test without permission. The Grades 6 and 7 *Mathematics* section breaks occur between the non-calculator and calculator sections of the test. Once a student leaves a section break, he or she may not return to that section.

Before proceeding to the next section, students must enter the appropriate four-digit Seal Code. Seal Codes should be printed no sooner than four days prior to testing. Seal Codes must be kept with secure materials.

Seal Codes can be printed from the Authorizations drop-down menu found on the *Session Details* screen. The Seal Codes PDF will appear on all *Session Details* screens but is only applicable when the test being administered in that session includes a sealed test section (such as Grades 6 and 7 *Mathematics* tests).

Seal Code PDF

Seal Codes

You have requested Seal Codes for the Testing Session noted below.

Session Name: ALG. 1
Test: Algebra I
Start Date:
Location:

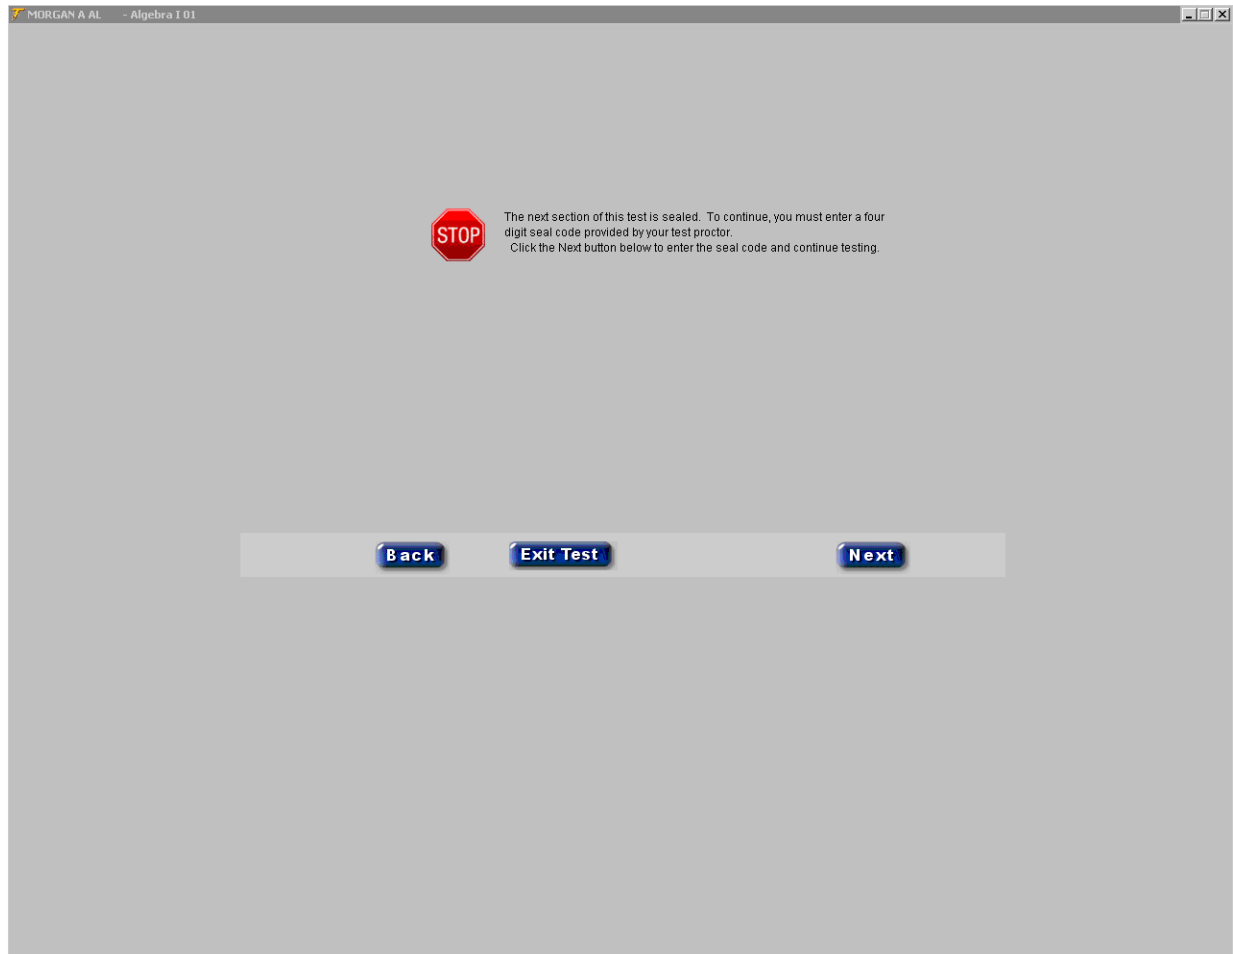

- Seal Codes are needed to "unseal" sealed sections of a test. (When a test section is sealed, students cannot proceed into the sealed section of the test.)
- Each sealed section requires a different Seal Code.
- There are (9) Seal Codes listed below. The number of Seal Codes you will use is determined by the number of sealed sections in the test. You must use the Seal Codes in the exact order in which they are listed below. For instance, if the table contains two sealed sections, use only the first two Seal Codes and ignore the remainder.

To unlock the first sealed section, use Seal Code 1129 .
To unlock the second sealed section, use Seal Code 7221 .
To unlock the third sealed section, use Seal Code 3728 .
To unlock the fourth sealed section, use Seal Code 8335 .
To unlock the fifth sealed section, use Seal Code 1569 .
To unlock the sixth sealed section, use Seal Code 7713 .
To unlock the seventh sealed section, use Seal Code 1112 .
To unlock the eighth sealed section, use Seal Code 4656 .
To unlock the ninth sealed section, use Seal Code 6929 .

Nine separate Seal Codes will appear on the PDF; however, only the first Seal Code will be used during any Grade 6 or 7 *Mathematics* test sessions. When students are ready to proceed to the next section, write the Seal Code for that section only on a dry-erase or chalkboard (or something similar) where all students can see the Seal Code. If a student is moved to a new session, a new Seal Code must be printed.

After the student has completed the last question in the first section of the test, an item review screen will appear for section one. At this time, students may complete a final review of items in the first section. After students are finished with section one *and* prior to the start of the break, students must click *Next Section* to lock section one.

The screen shown below will appear after the *Item Review* screen at the end of the section break. All testing workstations must be in *Exited* status or at the screen shown below **before** students are moved to an alternate test site or dismissed from the test session. Clicking *Next* on this screen will prompt the students to enter a four-digit Seal Code to begin the next section.

DISTRIBUTION AND AVAILABILITY OF TEST MANIPULATIVES

BEFORE TESTING

Test manipulatives listed below are stored in the school division. For online testing, all manipulatives are available on the toolbar in TestNav™ (except for a scientific calculator and scratch paper). Only those tools allowed for a given online SOL test are available on the toolbar. Prior to testing, the eTools™ Live application (available through PEMSolutions) may be used to give students additional practice with using the online tools.

Test Manipulatives/Materials

Grade/Subject	Manipulatives Allowed
Grade 6 <i>Reading</i>	scratch paper
Grade 6 <i>Mathematics</i>	metric/standard ruler ³ , straight-edge tool ³ , scientific calculator ¹ , protractor ³ , formula sheet ² , scratch paper
Grade 7 <i>Reading</i>	scratch paper
Grade 7 <i>Mathematics</i>	metric/standard ruler ³ , straight-edge tool ³ , scientific calculator ¹ , formula sheet ² , scratch paper
Grade 8 <i>Reading</i>	scratch paper
Grade 8 <i>Mathematics</i>	metric/standard ruler ³ , straight-edge tool ³ , scientific calculator ¹ (grade level test ONLY), protractor ³ (grade level test ONLY), formula sheet ² , scratch paper
Grade 8 <i>Science</i>	metric/standard ruler ³ , straight-edge tool ³ , 4-function calculator ² OR scientific calculator ¹ , scratch paper

¹ Students must use a hand-held scientific calculator as scientific calculators are not available online.

² Students may choose to use the hand-held test manipulative rather than the online tool.

³ Students must use the online version of this test manipulative.

DDOTs must distribute the hand-held manipulatives to the schools before testing begins. STCs may distribute the hand-held manipulatives to Examiners prior to testing or on the morning of testing. However, formula sheets should be provided to Examiners on the morning of testing. Copies of the formula sheets are available at

<http://www.doe.virginia.gov/VDOE/Assessment/Manipulatives/>

Although patty paper and tracing will continue to be allowed on all paper and pencil mathematics tests, be advised that any materials such as patty paper, dry-erase markers, or transparencies that are used to trace the images on the computer monitor are **not** permissible in the administration of online tests.

These guidelines should be followed when addressing calculator use on the SOL tests:

- Students should be familiar with the calculator they are to use. Do not let testing time be the first time a student uses a calculator.
- Either a school-owned or student-owned calculator may be used on the appropriate SOL tests. Online scientific calculators are **not** available to students in TestNav. (Refer to the list of APPROVED CALCULATORS in the *Specific Directions for Mathematics*.)
- Students may use four-function or scientific calculators on the Grade 8 *Science* test. (Refer to the list of APPROVED CALCULATORS in the *Specific Directions for Science*.)

DURING TESTING

You can monitor the progress of all students assigned to a test session via the Session Details. The color-coded words in the *Status* column after each student's name indicate the student's real-time test status:

<i>Status Text Color (Note)</i>	<i>Student Testing Status</i>
Black (Ready)	The student has not yet started taking the test.
Green (Active)	The student has logged in and started taking the test.
Orange (Exited)	The student has exited TestNav™ but has not submitted answers. The student needs to be resumed before completing the test.
Purple (Resumed)	The student exited the test and has been authorized to resume the test.
Purple (Resumed-Upload)	The student exited the test and has been authorized to resume the test with upload.
Teal (Submitted)	The student has finished testing and submitted the answers to be scored.
Blue (Processing)	The test has been submitted and the system has begun processing the data.
Red (Completed)	The submitted test data has been processed.
Red (Marked Complete)	The student has exited TestNav™ and will not resume the <u>same</u> test or the student has never logged into this test and must be accounted for. NOTE: Click on <i>Marked Complete</i> icon to view the reason why the test was marked Complete.

Be sure to click the browser's *Refresh* button frequently while viewing sessions. This button will update the students' status.

As students begin to login and start the test, the Student Status will turn green. As students submit their test, the Student Status will turn red; a red status cannot be restarted. If a student exits TestNav™ (either inadvertently or purposefully) before completing the test, the Student Status will turn orange.

If a student exits TestNav™ or loses connection before submitting a test, a test administrator must resume a student's test before the student can continue with the same test. To resume a student's test: (1) Select the check box for the student on the Session Details screen. (2) Click the "Resume Test" link, and then select "Resume Test" or "Resume Test with File" in the drop-down list. The "Resume Test" option indicates that the test will be resumed from the point the test was interrupted, without a saved response file. The "Resume Test with File" option prompts TestNav™ to resume the test and search for a saved student response file. After resuming the student's test on the Session Details screen, the student's status changes to "Resumed" (if "Resume Test" was selected) or "Resumed-Upload" (if "Resume Test with File" was selected). (3) The student can now log into TestNav™ and continue with the same test.

All directions in the Test Directions Manual that Examiners must read aloud to the students are in **bold type** so that it stands out from the rest of the text. This text must be read **exactly as written**, using a natural tone and manner.

If a mistake is made in reading a direction, the Examiner should stop and say, "**No, that is wrong. I must read it to you again.**" Then read the direction again.

Try to maintain a natural classroom atmosphere during the test administration. Encourage students to do their best.

The online tests are divided into sections. The directions and sample item(s) are in Section 1 of all online tests. The *Reading* test will also have a section for each reading passage and its associated questions.

If the sample question is not answered, the summary screen that is displayed when a student *submits* the test will indicate that one question is unanswered. To navigate between the sections, click on the *Go to...* button on the dashboard. This button will take the student to the Item Review screen. The sections are designated in the upper right-hand corner of the screen and

appear as black diamonds. The diamond for the section that the student is currently in will be blue. Students may click on the diamond with a “1” to return to the directions and sample question.

If a student asks a question during the test, be very careful when answering. If the student’s question refers to the mechanics of testing, such as how to navigate to the next question, it can be answered. If the question refers to a particular item, the student should be told, **“Read it carefully and choose the best answer.”** Help must not be given on specific items, and no cues should be given about the correctness of a student’s answer to a particular item.

Test questions may **not** be read to students unless specified by their IEPs, 504 management plans, or *LEP Student Assessment Participation Plan*. **If in doubt, it is better to say that you cannot respond to the student’s question rather than risk violating standard procedures.**

During the test administration, Examiners should monitor the testing process by moving as unobtrusively as possible about the room. While moving about the room, they need to check that students are able to select answers properly using TestNav™.

Have extra pencils, erasers, and scratch paper available in an accessible place. Students are **NOT** to have access to dictionaries.

Examiners should focus their attention on monitoring the testing process during the test administration and should not spend time reviewing test items. (Refer to the Test Security Guidelines in this manual.)

SPECIFIC DIRECTIONS FOR ADMINISTERING THE ONLINE GRADE 6 *MATHEMATICS* TEST

- SAY** Today you will be taking the SOL Grade 6 *Mathematics* test. This test will provide information about how well you understand this subject. It is important that you do your best on the test. I am going to give each of you a sheet of scratch paper and a Student Authorization ticket. You may use the formula sheet available online or a paper copy of the formula sheet. If you would like to use a paper formula sheet and need one for the test, please raise your hand. Do not do anything until I instruct you to do so.

Distribute scratch paper and Student Authorization tickets (test tickets). Have a supply of sharpened No. 2 pencils available for students to use during testing, if needed. Ensure that students also have any needed materials or supplies required for accommodations.

- SAY** Look at the Student Authorization ticket. Your name should appear next to Student Name. If you have a ticket for someone other than yourself, please raise your hand now.

[*You may skip these next two directions if you have launched TestNav™ and entered the URL so that the login screen is displaying on the computer screen when the students enter the testing location.]

- SAY** *Find the “lightning bolt” TestNav™ icon which looks like a ‘T’ on your desktop. Double click on this icon. Wait until the TestNav™ browser is on your computer screen.

*In the Address area at the top of the screen, enter the URL found on your Student Authorization ticket. [<http://www9.etest.pearson.com/VAP/>] Click on the GO button. You will now be directed to the Login screen.

From your Student Authorization ticket you should enter the Login ID, Password, and Test Code exactly as you see it on your ticket. Click on the Login button.

Students will be able to see their names in the upper left-hand corner of the screen as well as the percentage complete of the download of the initial part of the test. Once a student has successfully logged into the system, he/she will see the directions. Continue when all students have logged in successfully.

IMPORTANT

For the AUDIO TEST ONLY, the following directions appear on the screen and are automatically read to the students. Therefore, the Examiner should not read these directions to the students.

For all other online tests, the Examiner must read the following directions to students.

- SAY** Look at the directions on your computer screen. Follow along on the computer screen as the directions are read aloud.

The test questions will appear one at a time. On the screen, you will see the question and four possible answers. The computer will only allow you to choose one answer for each question.

You can use the mouse or keyboard to choose answers and move through the test. To answer a question using the mouse, place the pointer over an answer and click once.

To answer a question using your keyboard, type the letter that matches your answer. For example, to select answer A, type the letter A on your keyboard.

To move through the test using the mouse, click on the *Next*, *Back*, or *Go to...* buttons at the bottom of each screen. If you do not see the buttons, you need to scroll down using the scroll bar on the right-hand side of the window.

To move through the test using the keyboard, use the keystrokes listed below. These keystrokes are also printed on the bottom of your test ticket. [You may skip reading the keystroke combinations section below.]

CTRL/Control + Left Arrow	Back	(returns to the previous screen)
CTRL/Control + G	Go to...	(goes to review screen)
CTRL/Control + Delete/Del	Reset	(clears answer from the current question)
CTRL/Control + R.....	Review	(marks the question for later review)
CTRL/Control + Right Arrow	Next	(moves you to the next screen)
Page Up	Scroll up	
Page Down	Scroll down	

SAY The tools for this test can be used by clicking the tool's icon on the toolbar at the top of the window. For help with a tool, click on the *Help* icon on the toolbar.

This test has two sections. In the first section, you may use your scratch paper. You will be given a calculator to use in the second section. Once you move to the second section, you will not be able to go back to the first section to review your answers, so it is important to review the questions and your answers in the first section carefully. Raise your hand after you have completed the first section.

Read and solve each question. Using your mouse or keyboard, choose the best answer.

At the bottom of this page, click the *Next* button. Then you will see the sample item. Be sure to choose an answer to the sample question. If you do not answer the sample question, the summary screen at the end of the test will show that one question has not been answered.

Wait for students to click *Next*.

SAY Read the sample to yourself as I read it aloud. "*Which is less than one and sixty-four thousandths? (A) one and one hundred fifty-nine thousandths... (B) one and fifty-nine thousandths... (C) one and one hundred seventy-one thousandths... (D) one and seventy-one thousandths.*" Either click on the best answer or choose the letter of the best answer from your keyboard.

Before actual testing starts, make sure the test procedures are very clear to the students. Questions should be encouraged so that every student understands the mechanics of responding to the test questions.

IMPORTANT

If you have been instructed by your STC *not* to provide students a break, read the instructions in the shaded box, “Directions for No Break.” Announce to the class that directions for Section 2 will be read to students individually rather than to the entire group. As the students complete Section 1 of the mathematics test, you will give each student a calculator and will read the test directions quietly to each student at his/her work station.

or

If you have been instructed by your STC to provide students a break, read the instructions in the shaded box, “Directions for Flexible Break.”

DIRECTIONS FOR NO BREAK

SAY You may have as much time as you need to complete Section 1 of the Mathematics test, questions 1 through 12, before starting Section 2 of the test. After you have finished question 12, you will see the Item Review screen for this section.

Click *Next Section* on the Item Review screen. You will see a screen that reads, “You are about to continue to the next section.” It will also show how many unanswered questions you have.

SAY Click *Next* to continue to the next section. You should see a stop sign on your screen. Do NOT click “Exit Test” and do not click “Next” until I tell you to do so.

For some questions, you may need to use the online ruler or the online formula sheet or a paper copy of the formula sheet. You may use scratch paper for any writing you may need to do, but make sure to select your answers on the computer screen.

Please raise your hand if you have any questions or problems with your computer during the test. Also, remember to raise your hand when you have completed Section 1. I will give each of you a calculator and I will read the test directions for Section 2 to you individually at your work stations. Does everyone understand what to do?

After all questions have been answered,

SAY At the bottom of this screen, click the NEXT button. You may start working now on Section 1. Take as much time as you need for questions 1 through 12. You will NOT be able to return to these questions when we begin the next section of the test. When you do finish, raise your hand when you are ready to go on to the rest of the Mathematics test, questions 13 through 60.

Monitor the students carefully. As students raise their hands, indicating when they have completed question 12, make sure that students do not *Exit TestNav* at the section break.

When the student indicates that he/she is ready to resume testing, distribute a calculator. (Ensure that students also have any needed materials or supplies required for accommodations.)

APPROVED CALCULATORS

Approved scientific calculators are TI-30Xa Solar *School Edition*, CASIO Fx-260-School, Sharp 501 WBBK, Sharp EL501V.

Read the following directions for Section 2 quietly to each student,

SAY Here is a scientific calculator. Check to be sure your calculator is working. Be sure you understand which keys to press for the numbers and which keys to press for the operations.

Do you understand what to do?

Answer all questions.

Students will be prompted to enter the four-digit Seal Code that has been written on the dry-erase board or chalkboard (or something equivalent), where all students will be able to see the Seal Code. See pages 2-4 of the *Web-Based Test Directions* for more information on Seal Codes.

SAY Now click *Next* to continue to the next section. Then enter the four-digit Seal Code (####) that I will give to you. (Provide the four-digit Seal Code to the student written on a sheet of paper.) Now, you will see the directions for Section 2 of the Mathematics test.

Monitor the student carefully to ensure that he/she enters the Seal Code to continue to Section 2 of the test, questions 13 through 60.

SAY You will be able to read the following directions on the screen.

This is the second section of the Mathematics test. For some questions, you may need to use the online tools available. The tools for this test can be used by clicking the tool's icon on the toolbar at the top of the window. For help with a tool, click on the *Help* icon on the toolbar.

You may use the calculator whenever you want. You may use your scratch paper for any writing you may have to do, but make sure to select your answers on the computer.

Read and solve each question. Using your mouse or keyboard, choose the best answer.

You should answer all of the questions in this section of the test and keep working until you come to the end of the test. You may have as much time as you need to complete this test. When you finish this section, you may check your work on questions 13 through 60 only. Does everyone understand what to do?

After all questions have been answered,

SAY At the bottom of this page, click the *Next* button. You may start working now.

Assist any students if necessary.

SAY When you have finished, raise your hand and I will collect your materials. Do NOT click Submit or Exit Test without permission from me [or the Proctor]. After your test has been submitted and I have collected your Student Authorization ticket and other materials, you may sit quietly or read if you wish.

[Students should not be allowed to go online and access the Internet or other applications as it may disrupt those still taking tests. Examiners should instruct students to leave the final screen showing and NOT to click on the "OK" button until instructed to do so.]

SAY Remember, after taking the test, you should not discuss the test with anyone, including your classmates and teachers.

OR

DIRECTIONS FOR FLEXIBLE BREAK

Allow students to take at least a 10-minute break between Section 1 and Section 2 of the administration of this *Mathematics* test. Your STC will provide specific instructions regarding how long students should take a break for this test.

Before actual testing starts, make sure the test procedures are very clear to the students. Questions should be encouraged so that every student understands the mechanics of responding to the test questions.

SAY You may have as much time as you need to complete questions 1 through 12. After you have finished question 12, you will see the Item Review screen for this section.

Click *Next Section* on the Item Review screen. You will see a screen that reads, “You are about to continue to the next section.” It will also display how many unanswered questions you have.

You will NOT be able to return to these questions when we begin the next section of the test. When you do finish, raise your hand. After I have collected your Student Authorization ticket and other materials, you may sit quietly or read if you wish.

When most students have finished,

SAY We will take a break now.

Collect all test materials from those students who have completed the section. All items should be collected from each individual student rather than passed up or down the rows of computer work stations. Allow those students who have not finished to continue working. You may move these students to an alternate test area. Should this become necessary, have the students Exit their test and do not allow them to discuss the test in any way during the move. Be sure to account for all test materials including Student Authorization tickets, used formula sheets, and scratch paper before the students are moved to the alternate test area. Test materials must be kept secure while students are moved.

Allow the remaining students to take a break as instructed by the STC before you continue administration of the *Mathematics* test.

If students *Exit* TestNav™ prior to the break, their tests must be resumed in Test Session Management and they must log back into TestNav™. If students do not *Exit* TestNav™ at the section break, they **must return to their original workstations** and then enter the Seal Code to complete the test.

When you are ready to resume testing,

SAY I will now give you back your scratch paper, Student Authorization ticket, and formula sheet. I will also give you a scientific calculator. Do not click *Next* until I tell you to do so.

APPROVED CALCULATORS

Approved scientific calculators are TI-30Xa Solar *School Edition*, CASIO Fx-260-School, Sharp 501 WBBK, Sharp EL501V.

You should see the directions for Section 2. Does everyone see Section 2?

Assist any students if necessary.

SAY Follow along on the computer screen as the directions below are read to you.

This is the second section of the Mathematics test. For some questions, you may need to use the online tools available. The tools for this test can be used by clicking the tool's icon on the toolbar at the top of the window. For help with a tool, click on the *Help* icon on the toolbar.

You may use the calculator whenever you want. You may use your scratch paper for any writing you may have to do, but make sure to select your answers on the computer screen.

Read and solve each question. Using your mouse or keyboard, choose the best answer.

You should answer all of the questions in this section of the test and keep working until you come to the end of the test. You may have as much time as you need to complete this test. When you finish this section, you may check your work on questions 13 through 60 only. Does everyone understand what to do?

Answer all questions.

TEST SECURITY GUIDELINES

All persons in the division who will have access to or assist with the administration of the online or paper SOL tests must read the *Test Security Guidelines* and sign the *Test Security Agreement* before the administration of any tests. This security agreement requires that persons involved in the test administration exercise the necessary precautions to ensure the security of content and all test materials. **This agreement must be completed and maintained on file locally as directed by the STC before given access to the PEMSolutions online system and/or administering any online or paper tests.**

Test Security Guidelines and the *Test Security Agreement* are available on the following pages. In addition, when a user initially logs in to PEMSolutions (<http://www.pearsonaccess.com/va>), he/she will be prompted to read and accept the *Test Security Guidelines*. After doing so, the user may print and sign this version by clicking the Printer Friendly link on the screen. Some divisions do not set up the Examiners and Proctors as users on the online testing system. Therefore, they would never log in to the system to view the *Test Security Guidelines* mentioned above. In this case, a copied version of the *Test Security Agreement* and *Test Security Guidelines* on the following pages should be made available for the Examiners and/or Proctors to sign.

Divisions may make as many copies of the security agreement as necessary. Do not use file photocopies of previously signed security agreements from past administrations. Signed forms should be maintained on file locally as directed by the STC.

The following *Test Security Guidelines* and the *Test Security Agreement* are applicable to online testing as well as paper/pencil testing. Therefore, persons involved with both online and paper testing need only sign one *Test Security Agreement*. Persons who have not signed the Test Security Agreement may not be allowed access to PEMSolutions or any SOL tests.

VIRGINIA DEPARTMENT OF EDUCATION
STANDARDS OF LEARNING (SOL) ASSESSMENTS
FALL 2007

TEST SECURITY GUIDELINES

Listed below are guidelines to assist those persons involved in the administration of the Virginia Standards of Learning (SOL) Assessments (paper and online) in determining what actions may compromise test security.

1. Students must never be exposed to unreleased test items or to the answers to unreleased test items before or following test administration. **Using unreleased test items in any form (including rewording of such test items) is STRICTLY PROHIBITED.** If in doubt whether test items have been released, contact the Division Director of Testing for verification.
2. All persons are prohibited from providing students with the answer to any unreleased test item and from making any suggestion as to how to respond to a test item at any time, whether before, during, or after a test administration. This prohibition includes provision of clues, hints, and/or actual answers in any written, printed, verbal, and/or non-verbal form (including chalkboards, charts, and bulletin boards).
3. Examiners should receive test booklets/writing prompts only on the day of testing. Examiners are not to open sealed packages of writing prompts more than 30 minutes before the test session for the direct-writing component of the writing tests.
4. Examiners are not to improperly review test items or test booklets before, during, or after test administration. Examiners administering the paper multiple-choice *SOL* tests are not to look ahead in the test booklets.
5. Copying/printing/photographing **ALL OR ANY PART** of an SOL assessment or taking notes about the items included on a SOL assessment is **STRICTLY PROHIBITED.** As stated in the copyrights by the Commonwealth of Virginia Department of Education, testing materials may not be reproduced or used in any form or by any means, electronic or mechanical, including photocopying or recording or by any information storage or retrieval systems.
6. All persons are prohibited from logging into TestNav™ (the Web-based application) posing as a student, current or fabricated, to view any SOL assessments. Only a student whose name appears on a Student Authorization Ticket is permitted to log in and take an online assessment (not applicable for *Writing* tests).
7. The tests must be administered strictly in accordance with the instructions outlined in the SOL assessment manuals. This includes following proper procedures for using test manipulatives. Directions that are to be read to the students must be read exactly as written.
8. No test item that will be scored to obtain students' test results may be used as a sample or practice item for learning how to select responses. Sample items are included in the SOL assessments to familiarize students with the format of the items and the procedures for selecting their answers.
9. All persons are prohibited from attempting to formally or informally score SOL assessments.
10. All Examiners, Proctors, or Interpreters using a Proctor Authorization Ticket to administer an online Read-Aloud assessment to students requiring this accommodation are prohibited from answering test questions in the Web-based assessment before, during, or after the administration of the test (not applicable for *Writing* tests).
